Swiftech IRIS EXT400 Extension Cable

Special Price

$4.25 was

$5.95

Product Images

Short Description

The Swiftech IRIS-EXT-400 is a 400 mm male/female extension compatible with any Swiftech IRIS product.

Large custom liquid cooled builds can sometimes be challenging because of the distances between front and rear of the chassis. This is especially true when someone wants to hide cables as much as possible by routing them behind the motherboard tray as it will increase the cable length needed to connect a product to the IRIS-Eco controller. The 400 mm extension addresses.
