\$19.99

Product Images

Short Description

This CNC machined Solid copper IHS is intended for Intel 9th Gen CPUs. Has a smooth surface for maximum contact.

Description

This CNC machined Solid copper IHS is intended for Intel 9th Gen CPUs. Has a smooth surface for maximum contact.

Features

- CNC machined to tight tolerances
- Requires a Copper Relid guide to align properly (same guide as other copper kits)
- Surface area increased by 15% over stock
- Smooth and flat surfaces for maximum contact with CPU and cooling solutions.
- Fits 9th Gen i5, i7 & i9 CPUs only.
- NOTE: The Copper IHS is 100% compatible with the EK & Bitspower Monoblock
- Guide on how to easily remove solder from the [CPU](#)

!Important! Pay attention to the orientation of the IHS in the relid guide.
