Short Description

The CORSAIR Crystal Series 280X RGB is a high-performance Micro-ATX case with three beautiful tempered glass panels, RGB lighting and an innovative dual-chamber internal layout for clean looks and cleaner builds.

Description

The CORSAIR Crystal Series 280X RGB is a high-performance Micro-ATX case with three beautiful tempered glass panels, RGB lighting and an innovative dual-chamber internal layout for clean looks and cleaner builds.

Features

MASSIVE COOLING, SMALL CASE

Room for up to six 120mm cooling fans, or a 240mm radiator in the roof, 240mm radiator in the front, and 240mm radiator in the floor.

STUNNING RGB SOFTWARE CONTROL

Two included CORSAIR LL120 RGB fans boast 32 individually customizable LEDs, powered by an included Lighting Node PRO digital RGB lighting controller and CORSAIR iCUE software to deliver a symphony of color.

The Lighting Node PRO digital RGB Lighting controller provides individually addressable LED lighting with software control for unique lighting effects and vivid illumination of your PC. Dual channel operation allows for expansion of up to four RGB LED strips per channel or the addition of a set of CORSAIR LL RGB, ML RGB,

HD RGB, and SP RGB fans (sold separately). Combining the CORSAIR Lighting Node PRO and iCUE software gives you full control over your case lighting right from your desktop.

THREE PANEL TEMPERED GLASS

Three stunning, tempered glass panels put your system on display like no other Micro-ATX case.

DUAL-CHAMBER INTERNAL LAYOUT

Highlight your PC's core components whilst tidying cables, drives and the PSU into a dedicated rear chamber.

FLEXIBLE STORAGE SPACE

Dedicated storage compartment for up to two 3.5" drives and three 2.5" drives keeps your system clean without sacrificing storage capacity.

FULLY FILTERED

Front, roof, floor and PSU dust filters keep your system looking great long after your build is finished.

DIRECT AIRFLOW™ PATH COOLING

Cool air is directed to the hottest components, without any interference from drive cages.
