These Backplates come in 3 different types of wood Maple, Cherry and Mahogany and can come either coated of uncoated(for those that want to coat or stain the wood themselves)

Description

Looking for a way to set your Rig apart from the rest? Well these Custom Wooden Backplates are a perfect way to do just that. These Backplates come in 3 different types of wood Maple, Cherry and Mahogany and can come either coated of uncoated(for those that want to coat or stain the wood themselves)

These Backplates will come ready to install with double sided tap attached to the backside of the backplate.

PLEASE NOTE: These backplates require a EK backplate to work DO NOT attach these directly to your GPU. These items may vary from the original picture do to the fact they are made of wood and the grain will not be the same

EK-Vector RTX Backplate - Black is a CNC machined retention backplate made from black anodized aluminum, that fits all EK-Vector RTX 2080 and EK-Vector RTX 2080 Ti water blocks.

Backplate covers the whole length of graphics cards PCB, serves as an aesthetic add-on and also provides passive cooling for the backside of the voltage regulation module (VRM) and the GPU core.

This backplate is guaranteed to be compatible with all reference design NVIDIA® RTX 2080 and NVIDIA® RTX 2080 Ti cards graphics cards.
