

Male Molex Pin Extractor - Plastic

\$5.99

Product Images

Short Description

The molex extractor is a must have for sleeving power supplies or for removing Molex connectors off other cables. This versatile tool lets you remove male locking crimp pin connectors without damaging them. Allows you to work faster and more efficiently when modding.

Description

The molex extractor is a must have for sleeving power supplies or for removing Molex connectors off other cables. This versatile tool lets you remove male locking crimp pin connectors without damaging them. Allows you to work faster and more efficiently when modding.

Ideal for sleeving a power supply or fans as this tool eliminates the need of cutting of pins and wiring them back up again. All you have to do is slide the remover over each individual pin and pop them out.
