Short Description

Venom Voodoo, this cooler is definitely rock and roll. Venom Voodoo delivers ultra high performance enabling serious system overclocking. The 12cm killer Viper yellow fan uses S-Flow blades providing 30% more airflow than a standard fan at the same speed. PWM function ensures quiet operation during normal system use and performance cooling under load.

Description

Venom Voodoo, this cooler is definitely rock and roll. Venom Voodoo delivers ultra high performance enabling serious system overclocking. The 12cm killer Viper yellow fan uses S-Flow blades providing 30% more airflow than a standard fan at the same speed. PWM function ensures quiet operation during normal system use and performance cooling under load.

The Black cover and copper heatpipes combined with the Viper yellow elements creates a striking combination which adds pazazz to any system. Six high capacity heatpipes with direct CPU contact provide rapid heat transfer from CPU to high grade aluminium profiled fins. Anti-vibration rubber fan mounting pins provide easy installation and help to eliminate a lot of fan noise. Adjustable mountings ensure full compatibility with all current AMD and Intel CPU' s.

Dual 12cm viper fans giving extreme performance in a push-pull setup where the first fan “pushes” air through the heatsink' s cooling fins, at the same time the second one “pulls” air through from the other side. The combined airflow of two 12cm fans results in more efficient heat dissipation and consequently lower CPU temperatures.

Features

- Performance 12cm PWM fan in killer Viper yellow
- 6 high capacity heatpipes with direct CPU contact
- Award winning S-FLOW fan blades provide 30% more airflow
- Dual 12cm viper yellow fans

Specifications

Socket type	Intel LGA775, LGA115X, LGA1366, LGA2011, LGA2066 AMD Socket AM2, AM2+, AM3, AM3+, AM4, FM1, FM2 & FM2+
Cooler dimensions	131 (W) x 129.5 (D) x 163.5 (H) mm
Heatsink material	High grade aluminium fins, copper heatpipes
Heatpipe	6mm x 6
Weight	1065g
Installation	Screws and backplate (Intel & AMD)

Fan dimension	120 x 120 x 25mm
Fan speed	600-1900 RPM (PWM controlled)
Max airflow	83.63 CFM
Max air pressure	2.98 mm H2O
Noise level	6.9 - 28.9 dB(A)
Voltage rating	12V DC
Bearing type	HDB (Hydro Dynamic)
Fan life expectancy	50,000 hours
Fan connector	4pin PWM
Product code	AK-CC4008HP01V2

Additional Information

Brand	Akasa
SKU	AK-CC4008HP01V2
Weight	2.0000
Color	Yellow
Heatsink Type	CPU Heatsink
Material	Copper/Aluminum
Fan Dimensions	120mm
Fan Connection	4-Pin PWM
Fan RPM	1900

Internet Reviews

VR-ZONE
Overclockers Choice

"When it comes to performance, we feel that the Venom Voodoo is not going to disappoint any enthusiast. The dual fan Venom Voodoo offers better performance while generating less noise than several other competitive products..." [more..](#)

3D Professor
Editors Choice

"...it's significant cooling array whilst running at load was once more very difficult to hear. The temperature's whilst at idle and under load spoke for themselves and this has to be one item right at the top of the new build shopping list." [more..](#)

Tech Kings
Crowned Product

"...Voodoo combines many of the best lessons in the industry for optimal cooling performance, and put it together in a package that I like to describe as having "character."..." [more..](#)
