Short Description

Product Details:

Compatible with PC, Mac® and Mobile devices, the Flux features new, on-ear mesh cloth cushions that pump out impressive sound levels via its 40mm driver units. The headset includes cable connections for an in-line, uni-directional microphone with mute controls that connect to PC as well as a connector with a single 3.5mm jack for Mac® and mobile devices. The multi-use headset was designed to be travel-friendly, the headset earcups to fold inward when wearing it around the neck, and collapse at the earcup hangers for quick and compact storage. The SteelSeries Flux factors in convenience for the user by including 2 input jacks - one on each side, which allows for two user options: to choose which side the microphone cable can be plugged into, and the ability to “daisy chain” or plug in another headset to the Flux which allows for multiple users to listen to the same device. Customization of the SteelSeries Flux headset will provide users with the ability to order various outer plates with different colors and designs as well as various colored cushions.

Features:

- Customize your black or white headset with various cushions, cords and side plates.
- 40mm drivers in a mobile headset that provide an amazing experience anywhere.
- In-line, omni-directional microphone on the cord with mute controls.
- Travel-friendly, foldable design allows earcups lay flat.
- Allow friends to "listen in" by plugging into the available port on your Flux.
- Detachable cable w. inline music and mic control for easy travel.
- Both PC & Mobile/Mac® cables are included in the box for maximum versatility.

Specifications:
Headphones

1. Frequency response: 18 - 28000 Hz
2. Impedance: 29 Ohm
3. SPL@ 1kHz, 1 Vrms: 118 dB
4. Cable length: 2m
5. Jacks: 3.5 mm
Microphone
6. Frequency response: 50 - 16000 Hz
7. Pick up pattern: Omni-directional
8. Sensitivity: -38 dB
