

**Barrowch AMD RYZEN
 THREADRIPPER x399 CPU
 Water Block V2 - Silver**

\$106.95

Product Images

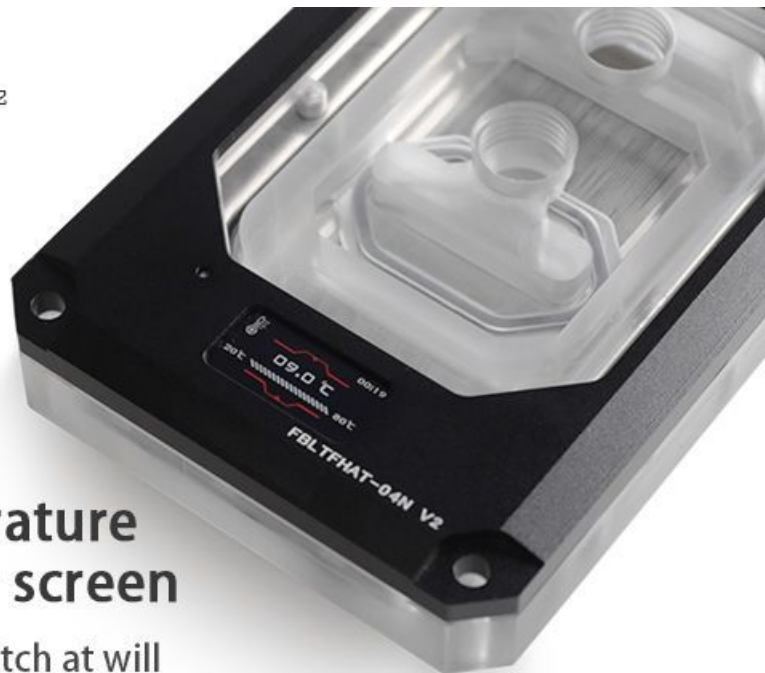

Short Description

Want a unique CPU waterblock with an integrated OLED temperature readout, but don't want feel like selling a kidney to get one? Well you're in luck because Barrowch has you and your CPU covered with this sleek solution! Designed for AMD consumer and workstation platform this block will work with Ryzen X399 socket CPUs.

Description

Want a unique CPU waterblock with an integrated OLED temperature readout, but don't want feel like selling a kidney to get one? Well you're in luck because Barrowch has you and your CPU covered with this sleek solution! Designed for AMD consumer and workstation platform this block will work with Ryzen X399 socket CPUs. With 0.4mm micro-fins and copper heat-plate you get thermal dissipation not typically found in this price range. Barrowch could have stopped there, but they insisted on giving you all the modern conveniences of fully customizable RGB that can be synced with your ASUS, MSI, Gigabyte and ASRock motherboards (adapter cables sold separately). The OLED power is provided via a standard 3-pin fan connector and the temperature readout is achieved via a thermal probe built into the block. All mounting hardware is included so you have everything you need to get up and running.

Features

Full color
TFT temperature
display screen

- Multiple modes to switch at will
- Water temperature Real-time display
- Super fast 1 MS frequency sampling rate

Integrated interface

- Through integrating circuits,Integrate the internal circuits into one power input
- only need access to Barrow's LRC2.0 lighting system

Various switching modes

- click the button in round hole to switch different modes by the accessory eject pin

Super strong Compatibility

-Compatible with three major platforms
including the TR4、 SP3 platform

New graphic **LOGO**

-With its appearance and visual impact,
we named it ——
extreme frozen shark

Aluminum alloy **CNC**

- the entire aluminum alloy raw materials
- multiple process CNC machined
- anodizing sandblasting process
- the surface texture is exquisite

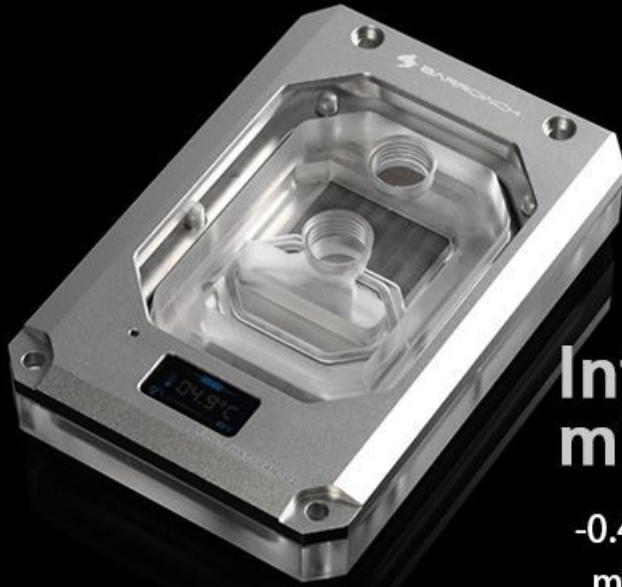

Enhanced large size water Block baseplate

- Adopting large size T2 copper to process by CNC multiple operation, spray micro-channel structure only for optimizing **THREADRIPPER** it can reduce using temperature of processor

BARROWCH

P/N:FBLTFHAT-04N V2

Intensive jetting micro waterway

- 0.4*0.2mm intensive 49 grooves
micro jetting waterway
- strong heat sink efficiency

BARROWCH

P/N:FBLTFHAT-04N V2

Full color lighting

- The lighting system presents a
dazzling surrounded RGB effect
- It can be controlled independently
- also could be compatible with some
motherboards' RGB interfaces

The center distance of the inlet and outlet is 23.85mm

Specifications

Name	BarrowchX399 AMD Threadripper Color screen version of Digital display CPU Water Block with multi mode
Model	FBLTFHAT-04N V2
Material	Aluminum alloy+ Acrylic+ Copper
Weight	570g
Specification	Suitable for AMD TR4 platform SP3 platform
Features	<ul style="list-style-type: none"> • Full color TFT temperature display screen: water temperature real-time display , Various modes can be switched at will, super fast 1ms frequency sampling rate; • Integrated interface: Through integrating circuits, Integrate the internal circuits into one power input, only need access to Barrow's LRC2.0 lighting system; • Various switching modes: click the button in round hole to switch different modes by the accessory eject pin; • Super strong Compatibility: Compatible with three major platforms including the TR4 / SP3 platform; • aluminum alloy CNC: the entire aluminum alloy raw materials, multiple process CNC machined , anodizing sandblasting process, the surface texture is exquisite; • 0.4mm micro waterway base plate, the waterway quantity is about 49 grooves, nickel plating process on the surface, made of pure mirror-polishing process; • Internal integrated full color adjustable RGB light module can achieve dynamic and static multiple color effect switching; • The upper cover of water block is made of PMMA, aluminum alloy and other materials meanwhile various color matching schemes could be chosen; • Acrylic materials are used of the original imported entire acrylic sheet; • Water block can detect temperature range is 0°C~99.9°C, in the picture temperature is only to show.
Matters need attention	<ul style="list-style-type: none"> • (The standard don't contain controller, if need, please purchase separately. The standard don't contain ZBDZJX-5 connective cable, please purchase separately); • The front of inlet port is suggested to add filter device to prevent jamming to extend the maintenance cycle of water loop; • The panel structure is complex so privately dismantling the connection between the aluminum alloy panel and the acrylic structure may make damage; • In case of upgrading to the appearance and structure , no further notice, the real object shall prevail.

Additional Information

Brand	Barrowch
SKU	FBLTFHAT-04N-V2-SL
Weight	2.5000
Color	Clear
Block CPU Type	AMD
Block Style	Nickel-Plexi
Vendor SKU/EAN	6937826662393
