\$95.95

Product Images

Short Description

Alphacool also has been able to combine the best quality with the most beautiful design for the NexXos V.2 radiators. The end chambers have been manufactured in a noble, modern design. In addition, the NexXos ST30 V.2 radiators now also have a G1/4"; connection at the opposite end chamber than the inlet/outlet for easy bleeding of the loop. Mount your Alphacool NexXos radiator in any position, the possibilities are unlimited.

Description

It's the best system because it's your system! Only be satisfied with perfection! The new Alphacool NexXos V.2 radiators will take you to the next level!

Increase the performance of your system with the new Alphacool NexXos V.2 radiators.

New and yet proven

Alphacool also has been able to combine the best quality with the most beautiful design for the NexXos V.2 radiators. The end chambers have been manufactured in a noble, modern design. In addition, the NexXos ST30 V.2 radiators now also have a G1/4"; connection at the opposite end chamber than the inlet/outlet for easy bleeding of the loop. Mount your Alphacool NexXos radiator in any position, the possibilities are unlimited.

Features

Countersunk screw plugs - anything but ordinary

For the first time Alphacool has created countersunk the screw plugs for the NexXoS range. This unique, patented design allows you to stay flexible with your Alphacool NexXos V.2 Radiator. Mount your radiator the way you want it. Thanks to the differently positioned inlets and outlets, you

remain individual and unique.

Solid copper - the best performance at the highest level

As always with Alphacool, the new Alphacool NexXxos series is also made of solid copper. Thus, the Alphacool NexXxos radiators offer you the highest thermal conductivity for the best performance. Rely on the No. 1 in materials.

Different sizes - same quality

The new Alphacool NexXxos V.2 is available in many different sizes and thicknesses. Thanks to its special shape, installation is child's play, even with the larger radiators. Decide for yourself which size is perfect for your system and always choose the best quality.

Specifications
