Short Description

Product Details:

This is our NEW favorite case of all time! We just love the look and quality of this case. Although pricey it is well worth it if you want the absolute best!

Ultra eXo Chassis

Introducing our commanding Ultra eXo case - the industry's hottest new gaming chassis! This outstanding case combines a roomy interior, plenty of expansion ports and drive bays, with the world's best cooling architecture to deliver spectacular performance for the most extreme systems. The Ultra eXo features premium aluminum construction, front and rear 120mm fans, side FireWire/USB/Audio ports, Ultra's unique Power Bar power distribution system, side panel air duct designed to cool your CPU, as well as a side panel VGA vent. And with five (5) 5.25-inch external drive bays, two (2) 3.5-inch external drive bays, and 5 (five) 3.5-inch internal drive bays, you have the flexibility to create a monstrous multimedia rig. If you're into extreme computing, you've found the perfect case - the Ultra eXo. Order today at the best price anywhere!
