---

The improved universal AC/DC digital adapter for Laptop and LCD Monitor works as a replacement power adapter for laptops, LCD monitors and other portable devices

## Description

---

The improved universal AC/DC digital adapter for Laptop and LCD Monitor works as a replacement power adapter for laptops, LCD monitors and other portable devices operating at AC input from 95V to 264V at 47~63HZ, Output for USB port: 5V at 1.5A Max. For 7DC voltages: 12V/15V/16V/18V/19V/20V/24V at 4.5A Max, total 90W Max. The adapter offers overload protection and short circuit protection. With 8tips plus a new tip especially for new Lenovo/IBM laptop computer, it will fit most of the name brand laptops and LCD monitors. This improved PSAD90b has a new RCA plug-in type connection that won't slip off or get loose like the similar products from other factories.
