Description

Product Details:

New SATA Combo Cable from Kingwin is SATA 7P+ 15P to SATA 7P +15P. This is a very nifty all-in-one cable used to connect to most modern SATA hard drives. The one end has both the power and the data lines in one large connector while the other ends go to the PSU for power and the motherboard for data transfer. The advantage of this connector is it stays in the hard drive more secure without coming off very easily.

Features

Features:

- Model: SAC-07
- Easy migration to SATA
- Connect SATA devices
- Compatible with both 3.5' ' and 2.5' ' SATA devices
- Quickly connect Serial ATA hard drives to an Internal power source
