Optional Molex Installation and Sleeving

Optional Molex Installation and Sleeving

Short Description

This True-Color Light Bar uses the most advanced cold cathode lighting technology, which was mainly adapted in LCD /Plasma backlit sources for its sharpness and brightness. By using the newly developed micro inverter built in the light bar, there is no more bulky transformer, inverter or HV wire. This light bar emits life-like true-color natural light with little heat generated, and it is more adaptive and simple in installation as it can be connected directly through the easy grip connector which makes the installation a snap. Just plug and go!

Description

This True-Color Light Bar uses the most advanced cold cathode lighting technology, which was mainly adapted in LCD /Plasma backlit sources for its sharpness and brightness. By using the newly developed micro inverter built in the light bar, there is no more bulky transformer, inverter or HV wire. This light bar emits life-like true-color natural light with little heat generated, and it is more adaptive and simple in installation as it can be connected directly through the easy grip connector which makes the installation a snap. Just plug and go!
This True-Color Light Bar is a perfect solution for small area lighting such as computer cases, commercial and residential cabinets, indoor or under roof accent lights etc and for all illumination applications.

Optionally we can professionally finish these bare wires for you so you can easily plug into your PSU. We will crimp pins, add Molex connector and then sleeve the wires in your choice of colors of Premium sleeving and heatshrink. Just choose this option above.

Features

- Ultra bright CCFL for multiple applications
- Single integrated unit, no more inverters to lug around
- Easy grip connector
- Low heat output

Specifications

- Naked Lamp Diameter: 2.6+/-1.0mm
- Tube Length: 12"(appr. 305mm) 20"(appr. 510mm)
- External Tube and Base Dimension: 12mm x 22.5mm
- Inverter Input Voltage: 12VDC
- Lamp Voltage: 1000V +/-10%
- Frequency: 60KHz +/-10%
- Lamp Current: 6.5mA +/-1.0
- Total Power: 7.2W
- Brightness: 30000Cd/m2 except UV (15000Cd/m2)

Package Contents:

- Cold Cathode Lamp either 12" or 20"
- Built-in Micro Inverter
- 16" Wire with Easy Grip Connector
- Installation Kit
- Easy installation clips, Velcro tape and zip tie
- Available Color: Blue , Pink, Green, Red, & White
