Short Description

A Limited Edition offering from FrozenQPCMods, the 250mm Liquid Fusion X4 features a hand heat formed quad spiral core, with a high quality CNC milled and threaded housing. The reservoir features a unique waterfall effect where the coolant travels up the central core slowly bleeding through the walls of the spirals when the inlet is connected to the bottom cap.

## Description

---

A Limited Edition offering from FrozenQPCMods, the 250mm Liquid Fusion X4 features a hand heat formed quad spiral core, with a high quality CNC milled and threaded housing. The reservoir features a unique waterfall effect where the coolant travels up the central core slowly bleeding through the walls of the spirals when the inlet is connected to the bottom cap. An internal UV CCFL bulb illuminates the spiral core giving off a tremendous glow sure to make it a centerpiece in any system. The reservoir does feature 4 ports, 2 lower side, 1 bottom and 1 top port. Each unit comes with 2 fill plugs, one for the top fill port and the other to plug whichever additional port is not being used. A pair of clear cast acrylic mounting rings are included with each reservoir.
