Product Images

Short Description

At FrozenQ, our flagship reservoir has also revolved around the helix inside. In order to keep the tradition alive, we've made it cheaper and easier to get your hands on one of these one of a kind helix reservoirs. Open up your LFX 230 or 250 reservoir, drop the helix core in, and that it's! The helix then becomes illuminated by the central tension rod.

Description

At FrozenQ, our flagship reservoir has also revolved around the helix inside. In order to keep the tradition alive, we've made it cheaper and easier to get your hands on one of these one of a kind helix reservoirs. Open up your LFX 230 or 250 reservoir, drop the helix core in, and that it's! The helix then becomes illuminated by the central tension rod.

Features

Make your reservoir the centerpiece of your build with an illuminated helix

Hand heat formed into a perfect double helix

Made from high quality colored acrylic rod

Easy to install, open the reservoir and slide the helix core in
