Short Description

This adapter will allow users to replace their laptop PC 2.5" SATA HD with mSATA SSD. mSATA SSD can reduce boot time, increase system benchmark performance, and provide longer laptop battery life. This adapter fits inside a notebook computer with a 2.5" SATA drive bay. This is the best storage solution for industrial computers, in-vehicle PC, gaming/casino/lottery platform, medical, networking management, and POS/KIOS/Digital signage/ATM.
