Product Images

Short Description

This programmable 4-channel fan control allows temperature-dependent control of the connected fans. As soon as the preset temperature range is exceeded or undershot, the operation of the fan starts or stops. From a temperature of 45 ° C, the Lamptron CCM30 Lite activates the connected fans. If a temperature of 25 ° Celsius is reached afterwards, the controller switches the fans off again. The green LED indicates whether the fans have been activated, the red LED indicates whether the device is being supplied with power.

Description

Specifications

Dimensions: 75 x 44 x 26 mm (W x H x D)

Distance holes: 70 X 35 mm (W x H)

Material: Anodised, brushed aluminum

Color: Black

Fan channels: 4 (max 30 W total)

Connections:

4x 3-pin (fan)

1x 2-pin (sensor)

1x 4-pole molex (power supply)

Delivery:

1x fan control

1x cable with temperature sensor (75 cm)

4x fixing screws

Additional Information

Brand	Lamptron
SKU	LAMP-CCM30B-D
Weight	2.0000
Color	Black
Device Type	Fan Controller
Special Price	\$19.95
