

direction quickly with your loop.

Description

The Bykski G1/4 Male to Female 90 Degree Rotary Elbow Fitting is an easy solution when trying to change direction quickly with your loop. This adapter is great for redirecting tubing runs away from components at unconventional angles. The rotary function allows you to aim the connection in any desired direction 90 degrees from the mount. The 30mm extension gives added clearance should other components be in the way or a bit more height is needed for a perfect fit.
