$84.99

Product Images

Short Description

The Bykski FR-CU-RA-2018 CPU Water Cooling Block w/ Temp Digital Display features a real time temperature display. This display is integrated directly onto the top of the block creating an easy to read output as well as stunning visual aesthetics. The display shows real time temperature as well as a 120 second history of temp changes.

Description

The Bykski FR-CU-RA-2018 CPU Water Cooling Block w/ Temp Digital Display features a real time temperature display. This display is integrated directly onto the top of the block creating an easy to read output as well as stunning visual aesthetics. The display shows real time temperature as well as a 120 second history of temp changes.

The block is constructed of high purity copper that is electroplated to prevent oxidation. A high flow design is used to allow maximum performance. Built in RGB lights can be used to illuminate this beauty with style.
