Short Description

The Bykski Dual GPU 40mm SLI/CF Connection Bridge Block allows you to connect two adjacent GPU blocks (40mm apart) creating a singular block. This increases rigidity and stability of your GPUs as well as eliminating the need for fittings or tubing between blocks.

Description

The Bykski Dual GPU 40mm SLI/CF Connection Bridge Block allows you to connect two adjacent GPU blocks (40mm apart) creating a singular block. This increases rigidity and stability of your GPUs as well as eliminating the need for fittings or tubing between blocks.

Warnings: Bridge block has 4 ports, only 2 are required for usage so stop fittings may be required based on configuration, please plan accordingly.
