

# Bykski CPU-XPR-A-MG CPU Water Cooling Block - Black w/ 12v RGB (LGA 115x /1366/ 20xx)

\$65.95

## Product Images

## Short Description

The Bykski CPU-XPR-A-MG CPU Water Cooling Block features an aluminum top plate that covers the precision machined PMMA top. The PMMA on the sides and around the ports allow the colors to flow through when the included RGB lights are engaged. The block is constructed of high purity copper that is electroplated to

prevent oxidation. A high flow design is used to allow maximum performance.

## Features

---

- Finest Craftmanship
- Designed to Fit Standard G1/4 Thread Fittings

## Specifications

---

### Specifications

- Model:CPU-XPR-A-MG
- Brand:Bykski
- Material:Electroplated High Purity Copper Base / PMMA Top / Aluminum Cover
- Thread:G1/4
- Channel:0.5mm

### Compatibility

- Loop:Non-Aluminum
- Socket:Intel LGA 1150/1151/1155/1156 / LGA1366 / LGA 2011/2066
- Fittings:G 1/4 Thread

### Parts Included

- 1x CPU Water Cooling Block
- 1x Mounting Hardware
- 1x 12v RGB lighting

## Additional Information

---

Brand	Bykski
SKU	CPU-XPR-A-MG-BK
Weight	2.5000
Color	Black
Block CPU Type	Intel
Block Style	Nickel-Plexi
