

Bykski CPU-XPR-A-V2 CPU Water Cooling Block - Clear w/ RGB (LGA 115x / 20xx)

\$64.99

Product Images

Short Description

The Bykski CPU-XPR-A-V2 CPU Water Cooling Block features a precision machined PMMA top. The PMMA allows the colors to flow through when the included RGB lights are engaged. The block is constructed of high purity copper that is electroplated to prevent oxidation. A high flow design is used to allow maximum

performance.

Features

- Finest Craftmanship
- Designed to Fit Standard G1/4 Thread Fittings

Specifications

Specifications

- Model:CPU-XPR-A-V2
- Brand:Bykski
- Material:Electroplated High Purity Copper Base / PMMA Top
- Thread:G1/4
- Channel:0.5mm

Compatibility

- Loop:Non-Aluminum
- Socket:Intel LGA 1150/1151/1155/1156 / LGA 2011/2066
- Fittings:G 1/4 Thread

Parts Included

- 1x CPU Water Cooling Block
- 1x Mounting Hardware
- 1x RGB LED lighting

Additional Information

Brand	Bykski
SKU	CPU-XPR-A-V2
Weight	2.5000
Color	Clear
Block CPU Type	Intel
Block Style	Nickel-Plexi
