The Bykski DDC Pump w/ Armor is a DDC pump with the Bykski Heatsink Armor preinstalled. When used with a (B-PMFS) the pump can be actively cooled with a fan as well!

Description

The Bykski DDC Pump w/ Armor is a DDC pump with the Bykski Heatsink Armor preinstalled. When used with a (B-PMFS) the pump can be actively cooled with a fan as well!

Features

- Aluminum Construction

Specifications

Specifications

- Material:Aluminum (not in contact with coolant)
- RPM:5000
- Power:DC12v, TDP15W
- Voltage Range:10v-15v
- Flow Rate:600L/h
- Temperature:45°C @ 4000RPM
- Connector:4-Pin Molex and PWM+ data feedback

Compatibility

- Loop:Aluminum or Non-Aluminum
- Fitting:G1/4 Thread

Included Parts

- 1x Aluminum Housing (installed)
- 1x Aluminum Base Plate (installed)
- 1x Pump Pad (installed)
- 4x Mount Screws (installed)
- 1x DDC Pump (installed)

Additional Information

Brand	Bykski
SKU	B-PMD3-COV-R
Weight	1.2500
Color	Red
Pump Type	DDC
Pump Voltage	12 VDC
