

Bykski Metal Rigid Tubing - Electroplated Brass - 14mm OD - 200mm

\$10.99

Product Images

Short Description

The Bykski Metal Rigid Tubing is an electroplated brass material making it extremely hard. It has a seamless construction, which provides a smooth interior surface. It comes in a straight run that has a strong corrosion resistance. This style tube is not meant to be bent. We found this tube can be used with great effectiveness as a delivery system for your coolant when using straight runs for your hard tubing. The added metal in your system can't hurt bringing temperatures down in transition between components. By absorbing heat from

the coolant the tube can dissipate this heat easily with any kind of average internal airflow in your chassis.

Description

The Bykski Metal Rigid Tubing is an electroplated brass material making it extremely hard. It has a seamless construction, which provides a smooth interior surface. It comes in a straight run that has a strong corrosion resistance. This style tube is not meant to be bent. We found this tube can be used with great effectiveness as a delivery system for your coolant when using straight runs for your hard tubing. The added metal in your system can't hurt bringing temperatures down in transition between components. By absorbing heat from the coolant the tube can dissipate this heat easily with any kind of average internal airflow in your chassis.

Features

- Polished surface
- Extra heat dissipation bonus

Specifications

Specifications

- Temper Rating:Hard
- Material:Brass
- Tube Size:12mm Inner Diameter / 14mm Outer Diameter
- Wall Thickness: 2mm

Compatibility

- Fittings:any 14mm OD Rigid Fittings

Parts Included

- Sold Per 200mm Stick (an order quantity of 3 would result in a 3x 200mm pieces)

Installation

Cutting should be done with the proper tools. Failure to do so can result in nonuniform ends leading to leaking and failure to seal.

Additional Information

Brand	Bykski
SKU	B-MTPP200
Weight	1.0000
Color	Chrome
Tube Type	Brass
Tube Size	14mm
Material	Brass
Delivery	Bare
