Short Description

The Bykski MSI RTX 2080 GAMING X TRIO Full Coverage GPU Water Block Full is a work of art! This full coverage block, directly cools the video cards core (GPU), graphics memory (RAM) as well as the voltage regulator modules (VRM). By directly cooling these components you can achieve great temperatures! Along

with these temperatures comes the ability to reach higher overlocks or extend the overall lifespan of your card by running at below factory temps.

Description

The Bykski MSI RTX 2080 GAMING X TRIO Full Coverage GPU Water Block Full is a work of art! This full coverage block, directly cools the video cards core (GPU), graphics memory (RAM) as well as the voltage regulator modules (VRM). By directly cooling these components you can achieve great temperatures! Along with these temperatures comes the ability to reach higher overlocks or extend the overall lifespan of your card by running at below factory temps.

The block is constructed of high purity copper that is electroplated to prevent oxidation. A high flow design is used to allow multiple blocks to run in series. Top and bottom ports can be used to configure parallel or serial designs in multi block set ups.

Warnings: This is a repair or replace only item. Returns not accepted on compatibility issues or block has had water/fluid run through it. Manufacturer reserves right to alter block design to expand compatibility. Delivered item may not 100% match pictured item.
