Short Description

For those of you looking to bring extra customization to your LIAN LI O11 DYNAMIC cases, Bitspower offers a

customized reservoir and pump combo under the name of Touchaqua Sedna O11DA. Designed to replace the front panel of the case, this distribution reservoir features a powerful S1 pump that will keep your liquid moving at the right pace, and a mirror silver finish, that will turn your case in a work of art.

Description

For those of you looking to bring extra customization to your LIAN LI O11 DYNAMIC cases, Bitspower offers a customized reservoir and pump combo under the name of Touchaqua Sedna O11DA. Designed to replace the front panel of the case, this distribution reservoir features a powerful S1 pump that will keep your liquid moving at the right pace, and a mirror silver finish, that will turn your case in a work of art.

With novice modders in mind, Bitspower designed a reservoir that is easy to install while providing a professional look. Equipped with multiple 1/4" water inlets and outlets to route the water from the radiator to the VGA than the CPU, this Touchaqua customized reservoir also gives you more playroom for the graphics card location with a dual inlet/outlet designed to prevent having to bend more tubes and create a cleaner look to your loop.

The Touchaqua Sedna O11DA, equipped with Bitspower Digital RGB, is sure to become the center of attention of your case with bright LEDs that are certified by ASUS AURA Sync, GIGABYTE RGB Fusion, MSI Mystic Light Sync, and ASRock Polychrome.

Features

1. Digital RGB Effect Make Your Build More Unique.
2. Made By Hi-Quality Acrylic.
3. RoHS Compliant.
