

Cooler Master MasterBox MB530P Mid Tower Chassis

\$129.99

Product Images

Short Description

A striking case that makes your rig stand out immediately, the MasterBox MB530P will impress everyone with premium build quality and tempered glass panel on three sides (left side, front and right side). Three pre-installed 120mm RGB fans on the front deliver robust cooling and mesmerizing lighting.

Description

A striking case that makes your rig stand out immediately, the MasterBox MB530P will impress everyone with premium build quality and tempered glass panel on three sides (left side, front and right side). Three pre-installed 120mm RGB fans on the front deliver robust cooling and mesmerizing lighting. The MasterBox MB530P is more than a piece of eye candy—it accommodates ATX motherboard and oversized components, features a PSU shroud at the bottom for a unified look, and offers ample clearance behind motherboard tray to route and hide cables. Two USB 3.0, two USB 2.0 and two audio jacks on the top allow handy access to peripherals. All these add up to a powerful and beautiful mid tower case that's a perfect home to your new dream system.

Features

3 Tempered Glass Panels

The front and side panel offer a clear view of the front fans and system configuration, while the panel behind the motherboard is patterned tempered glass to hide the open side of the PSU.

Aggressive Intakes

Large intakes on each side of the front panel feed air to cool the interior.

Addressable Rgb Lighting

Sync the addressable RGB lighting on the power button and fans by connecting the ARGB cable from the I/O

panel to the included 2 to 3 ARGB splitter. Certified compatible with: ASUS, Gigabyte, MSI, and ASRock motherboards for a comprehensive lighting system.

Fan And Radiator Support

- Front: Three 120mm or two 140mm fans and up to a 360mm radiator with a maximum thickness of 50mm without fans.
- Top: Two 120mm or two 140mm fans and supports a 120mm or a 240mm radiator.
- Rear: One 120mm fan or radiator. All to ensure you don't have to compromise on performance.

Cable Cover And Routing Space

A PSU shroud¹, cable cover², and 18~25mm width of space³ behind the motherboard provides options to keep systems clean;

GFX cables can also be routed directly through the PSU shroud rubber grommet⁴

Expanding The Possibilities

The spacious interior fits all standard motherboards for your gaming needs.

Main Components Clearance

The MasterBox MB530P case supports CPU coolers up to a height of 165mm, graphics cards up to a length of 410mm, and power supplies up to a length of 180mm.

Specifications

Product Name	MasterBox MB530P
Model number	MCB-B530P-KHNN-S01
Available Color	Black
Materials	Steel, Plastic, Tempered Glass
Dimensions (L x W x H)	489 x 229 x 469mm
Motherboard Support	ATX, Micro-ATX, Mini-ITX
Expansion Slots	7
