Short Description

The MasterBox Q300P is your portable option in the MasterBox Q-series from Cooler Master, a series that might be small in size but excels in functionality, modularity, and thermal performance.

Description

The MasterBox Q300P is your portable option in the MasterBox Q-series from Cooler Master, a series that might be small in size but excels in functionality, modularity, and thermal performance.

Four removable handles and the DarkMirror front and top panels makes the chassis easy to transport and stands out from the rest.

The combination of a practical design and the unique customizable aesthetic makes the Q300P the perfect choice for gamers and creative builders.

Features

RGB Lighting

Use the RGB lighting to create a captivating build in your preferred color theme with the included RGB controller.

Easy To Handle

Four removable handles make it easy to transport or carry your full system build to a LAN Party.

Modular I/O Panel

The I/O panel can be adjusted to six different locations. On both side of the body you can install the I/O panel at the front, top or bottom.

Multiple Positioning Options

The case can be put in vertical and horizontal position.

Edge-To-Edge Side Panel

Show off your build through the full size transparent side panel.

Clean Routing Space

Behind the motherboard tray, it offers 28mm wide and spacy room for hidden cable management.
