

Bitpower Universal Memory LN2 Container

\$270.50

Product Images

Short Description

For serious overclockers, liquid nitrogen is the only solution in order to push their hardware to the next level and get the highest benchmark scores. And for them, Bitpower presents the Universal Memory LN2 Container. Made out of a solid block of high quality copper, the Bitpower LN2 Container is precisely sculpted via CNC for a clean channel routing and most efficient cooling capabilities. Finished with nickel plating, the Bitpower LN2 Container has a great look with greater performance.
