

Anodized Aluminum Large Case Handle - Silver

\$14.99

Product Images

Short Description

Anyone who's been to a LAN Party knows that it is far superior to playing games over the internet. Our case handles make it easier to tote your case around to these events by putting a handle on top. This handle is "frost" anodized aluminum, to match our anodized cases. These handles are perfectly suited for LAN cases. They are standard "U" shaped "Oval" handles. This means that the metal is not round, but oval, to be easier on your hands.

Description

Tote Your Box !

Anyone who's been to a LAN Party knows that it is far superior to playing games over the internet. Our case handles make it easier to tote your case around to these events by putting a handle on top. This handle is "frost" anodized aluminum, to match our anodized cases. These handles are perfectly suited for LAN cases. They are standard "U" shaped "Oval" handles. This means that the metal is not round, but oval, to be easier on your hands.

Of course, no kit is complete without supplying everything you need, and we include not only the mounting hardware, but also large fender washers that keep your case from buckling or bending due to a heavy load.
