Short Description

EK-Velocity Strike is a new variant of the EK-Velocity, a high-performance flagship premium quality CPU water block for modern Intel and AMD processors. It features a newly developed aesthetical top with a diagonal strike-through design mixing matte black and silver for an elegant and striking look. The 45-degree line across the center of the block perfectly matches with some of the high-end motherboards that are on the market today.

Description

EK-Velocity Strike is a new variant of the EK-Velocity, a high-performance flagship premium quality CPU water block for modern Intel and AMD processors. It features a newly developed aesthetical top with a diagonal strike-through design mixing matte black and silver for an elegant and striking look. The 45-degree line across the center of the block perfectly matches with some of the high-end motherboards that are on the market today.

EK Velocity series CPU water blocks embed the 5th generation of the award-winning EK CPU water block cooling engine, further tweaked for performance and optimal coolant flow! Low hydraulic flow restriction enables this product to be used in setups using weaker water pumps or lower pump speeds for added silent operation, while still achieving top performance!

The top is CNC machined out of a solid piece of brass which is coated with black chrome, while the aesthetic cover piece is made of black anodized brushed aluminum. The purest copper available on the market is used for the EK-Velocity Strike cold plate which is precisely machined to a dense micro-fin structure. The contact surface itself is machine polished for better contact with the CPU IHS.

The new cooling engine is characterized by the top-integrated jet nozzle which is combined with a thicker jet plate allowing a more precise bow control. The simplified water block structure offers a more optimized coolant flow and easier maintenance, while the interchangeable thick jet plate ensures the best contact surface for mainstream and HEDT Intel platforms.

The block is equipped with a reinforced hold-down bracket, and the enclosed mounting kit includes all the necessary mounting screws, mounting springs, an Intel 115x backplate, an AMD AM4 backplate, rubber backplate gasket and a small tube of Thermal Grizzly Hydronaut high-performance thermal paste. The EK-Velocity Strike CPU water block features a universal mounting mechanism that offers error-preventing, tool-less installation supporting Intel LGA-115x and LGA-20xx sockets out of the box. The mounting screws are streamlined and are even smaller than before for an added aesthetical perfection. The user has to replace the mounting bracket in order to mount the water block to AMD AM4 socket motherboards.

The product features an RGB illuminated EK logo which connects to a standard 4-pin 12V RGB header. It is compatible with all popular RGB sync technologies from all major motherboard manufacturers. The arrow marking on the 4-pin LED connector is to be aligned with the +12V marking on the RGB header.

Specifications

Technical specifications:

- RGB cable length: 30cm
- RGB connector classic 4-pin (12+ G R B)

CPU socket compatibility:

- Intel LGA-1150/1151/1155/1156
- Intel LGA-2011(-3)
- Intel LGA-2066
- AMD AM4

Made in Slovenia - Europe!

EK-Velocity Strike is a high-performance flagship premium quality CPU water block for modern Intel processors. It features a fresh design that will enable a vast number of variations and options for enthusiasts and demanding users as well!

EK® Quantum - Design & Performance

Velocity series water blocks are part of the EK Quantum Product Line that emphasizes minimalistic, elegant design, and performance. For those who want to stand out!

For more information, check out: www.ekwb.com/quantum

PLEASE NOTE:

- AMD AM4 mounting bracket and backplate are included!
- This product should NOT be installed with any aluminum EK Fluid Gaming parts!
- The use of specifically engineered coolants that contain corrosion, scale, and biological inhibitors is mandatory to prevent damage to your nickel plated water block! EK is offering a selection of such products in the coolants section.
- The arrow marking on the 4-pin LED connector is to be aligned with the +12V marking on the RGB header.

Additional Info

	Nickel Acetal
	G1/4
	Intel, AM

Additional Information

Brand	EK Waterblocks
SKU	EK-VELOCITY-STRIKE-RGB-MB-SL-D
Weight	2.5000
Color	Black
CPU Series	Intel LGA 1150/1151/1155/1156/2011(-3)/2066 AMD AM4/Ryzen
Block CPU Type	Intel/AMD
Block Style	Nickel-Acetal
Vendor SKU/EAN	3831109814611/switching to 3831109859513
Special Price	\$134.99
