Short Description

Bitspower Mono Block for GIGABYTE X570 Aorus Ultra

The most important components of your motherboards deserve to receive the best heat management possible, which is why Bitspower expertly designed the AMD X570 series mono block to simultaneously cool the CPU and VRMs. Featuring a direct water injection design, the CPU is firstly chilled with the coldest water, then the liquid is redirected over the VRMs, keeping everything at a low temperature for maximum performance.

Description

Bitspower Mono Block for GIGABYTE X570 Aorus Ultra

The most important components of your motherboards deserve to receive the best heat management possible, which is why Bitspower expertly designed the AMD X570 series mono block to simultaneously cool the CPU and VRMs. Featuring a direct water injection design, the CPU is firstly chilled with the coldest water, then the liquid is redirected over the VRMs, keeping everything at a low temperature for maximum performance.
Made of clear acrylic, the top layer of the mono block offers not only an efficient water channel design, but also a unique look to complement your PC style, while the base layer is made of high quality copper and molded to tightly fit over the CPU and VRMs, offering the best heat transfer possible. Additionally, the Bitspower AMD X570 series mono block is equipped with Bitspower Digital RGB LEDs, the X570 series mono block is sure to become the center piece of your rig with its easy to control light effects.

Features

I wanna show off, but what's the support I'd need?

◆DRGB

The end of power supply is 3PIN. The sequence is +/D/↓ (some motherboards are shown +5V/D/↓, and the plug is like 4PIN but the 3rd PIN is empty). Please plug in the corresponding direction of motherboard, controller or the wire integrator for one to many. If choosing the motherboard as the power supply, the light effect can be synchronize with MB.

*** Bitspower reserves the right to change the product design and interpretations. These are subject to change without notice. Product colors and accessories are based on the actual product. ***

*** From 15th March 2018, all of our installation guides will be provided electronically via an easy-to-use QR code attached to the packaging. ***

*** Before filling in the water, please make sure all the components are installed correctly. To prevent any leakage which may damage the PC components, please perform a 24-hour leaking test with only the pump connected to the power supply. ***
