\$26.99

Product Images

Short Description

Akasa Pi-4 has a Beautifully crafted, aluminium case. Thermal kit with heatsink top cover cools and protects Raspberry Pi 4.

Description

Akasa Pi-4 has a Beautifully crafted, aluminium case. Thermal kit with heatsink top cover cools and protects Raspberry Pi 4.

Features

- customised thermal kit and heatsink top cover conducts heat away from the processor, GPU and USB 3.0 chipset; ensures the system runs optimally, even under heavy workload.
- contemporary styled heatsink top cover and refined look make it perfect for a home entertainment or automation system.
- easy access to external connectors. Concealed SD card opening for commercial production system delivery.
- optional DIN rail bracket and wall mounting kit.
