

EK-Quantum Vector RTX 2080 D-RGB Upgrade Kit - White

\$19.99

Product Images

Short Description

An addressable D-RGB upgrade kit for existing EK-Vector RTX high-performance full-cover water blocks that fit reference design NVIDIA® GEFORCE® RTX 2080 and RTX 2070 SUPER graphics cards. The upgrade kit includes a new white stick out with an addressable D-RGB LED strip and a new terminal cover that also features the 5V D-RGB addressable LED lighting.

Description

An addressable D-RGB upgrade kit for existing EK-Vector RTX high-performance full-cover water blocks that fit reference design NVIDIA® GEFORCE® RTX 2080 and RTX 2070 SUPER graphics cards. The upgrade kit includes a new white stick out with an addressable D-RGB LED strip and a new terminal cover that also features the 5V D-RGB addressable LED lighting.

EK-Quantum Vector D-RGB Upgrade Kit enables a quick and easy upgrade of the existing EK-Vector RTX RE and EK-Vector RTX 2080 to the latest addressable 5V D-RGB version of this EK-Quantum water block.

This product is compatible with popular D-RGB sync technologies from all major motherboard manufacturers. The arrow marking on the 3-pin LED connector is to be aligned with the +5V marking on the DRGB (addressable) header.

Specifications

Enclosed:

- Stick out with 5V D-RGB addressable LED strip (+5V | D | Blocked | Ground)
- Terminal cover with integrated 5V D-RGB addressable LED lighting (+5V | D | Blocked | Ground)
- EK UNI key

Made in Slovenia - Europe!
