

# Singularity Computers Ethereal Single 2.0 – Silver

\$37.99

## Product Images

## Short Description

---

Ethereal Single was the first reservoir mount to directly attach a reservoir to a radiator which has since become an industry standard. It creates an extremely compact Pump and Reservoir configuration which can fit into the tightest cases. The back plate is universal and fits 120mm and 140mm wide radiators.

## Description

---

Ethereal Single was the first reservoir mount to directly attach a reservoir to a radiator which has since become an industry standard. It creates an extremely compact Pump and Reservoir configuration which can fit into the tightest cases. The back plate is universal and fits 120mm and 140mm wide radiators. It has horizontal adjustment with increments of 10mm so that you can offset your components on the radiator. Ethereal Single 2.0 now comes with the latest Universal Back Plate which reduces overhang when using it on a 120mm wide radiator.

## Features

---

### Quality:

Created with a manufacturing process used in industries such as aerospace. All components are carved from a solid block of 6061 aluminum with extreme precision. Anodized for the toughest and most resistant surface available. Stainless steel fasteners for maximum strength and corrosion resistance. Silicone anti vibration pads with extremely high set point resistance.

### Compatibility:

Ethereal Single 2.0 fits any 60mm reservoir or pump/reservoir combination on the market. It mounts onto any 120mm or 140mm wide radiator meaning 120mm, 140mm, 240mm, 280mm, 360mm, 420mm and 560mm radiators. It can be mounted to a radiator, onto fans or onto a radiator or fan mounting position.

# Specifications

Specifications:

- Material: 6061 Aluminium.
- Surfacing: Anodized.
- Manufacturing Process: CNC Milled.
- Fasteners: Stainless Steel.
- Anti-vibration Pads: Clear Silicon.

Included items:

- Mount Rear Clamp.
- Mount Front Clamp.
- Universal 120/140mm Back Plate.
- M4 10mm Button Head Hex Countersunk x2.
- M4 8mm Button Head Hex x2.

Experience Singularity:

We have built high end liquid cooled systems every day for a decade and so our designs come from hands on experience. What comes first in our products is versatility, quality and aesthetics. When you are building you need as many options as possible. We have designed a range of products with the versatility to give you the freedom to create your own unique ideas. We do not hold back on quality to save cost, our focus is premium, high end components. All of our products are precision machined from a solid block of the most high quality materials. Our aesthetics are derived from function, clean and neutral to fit your ideas and theme.
