

SMB Precision Metal Mitre Box For Hobby & DIY

\$14.95

Product Images

Short Description

These are about 5.25 x 2 x 7/8 inch. They are great for making 90° and 45° cuts. Use with the Xacto Razor saw knives for straight cuts. This tool is ideal for precision finishing of woods, plastics, or soft metals. Make clean, precise mitred corners for model parts, trim, and countless other applications. Square base suppresses rocking in use for cleanest cuts possible! We use these in house and they are a "must have" for any serious modder!
