## Product Images

## Short Description

---

An addressable D-RGB upgrade kit for existing EK-Vector Radeon RX 5700 +XT high-performance full-cover water blocks that fit reference design AMD® Radeon® RX 5700 and 5700 XT graphics cards. The upgrade kit includes a black stick out piece with a standard 3-pin 5V D-RGB addressable LED strip and a new terminal cover that also features the 5V D-RGB addressable LED lighting.

## Description

---

An addressable D-RGB upgrade kit for existing EK-Vector Radeon RX 5700 +XT high-performance full-cover water blocks that fit reference design AMD® Radeon® RX 5700 and 5700 XT graphics cards. The upgrade kit includes a black stick out piece with a standard 3-pin 5V D-RGB addressable LED strip and a new terminal cover that also features the 5V D-RGB addressable LED lighting.

EK-Quantum Vector Radeon RX 5700 +XT D-RGB Upgrade Kit enables a quick and easy upgrade of the existing EK-Vector Radeon RX 5700 +XT water block to the latest addressable 5V D-RGB version of this EK-Quantum water block.

This product is compatible with popular D-RGB sync technologies from all major motherboard manufacturers. The arrow marking on the 3-pin LED connector is to be aligned with the +5V marking on the DRGB (addressable) header.
