Short Description

The ultimate in airflow to noise ratio, iXtrema Pro Quiet Fans are the only fans in the industry to be designed with silence and optimal airflow in mind. Smaller, domed motor hub, larger, more dramatic fan blade sweep

area, no other fans on the market come even close in performance!

Description

The ultimate in airflow to noise ratio, iXtrema Pro Quiet Fans are the only fans in the industry to be designed with silence and optimal airflow in mind. Smaller, domed motor hub, larger, more dramatic fan blade sweep area, no other fans on the market come even close in performance! There might be fans that offer more airflow or lower noise levels, but when it comes to a balance between the two, these fans can't be beat. Now available in a thermal controlled version, it comes with a 300mm long attached thermistor so you don't need to fiddle around with a fan controller! Simply mount the thermistor close to a heat sensitive component and the fan will speed up and down based on the temperature it senses.

Features

- Ultimate airflow to noise ratio
- Silicone fan mounts included
- Thermistor included for fan speed control

Forward sweeping fan blade design increases static pressure compared to other silent fans and offers better airflow in areas where ventilation is restricted.
Reduced motor size and conical shape allows for the largest blade surface area of any fan and improves aerodynamics compared to the cylindrical dead-spot of other silent fans.
Silicone-composite fan mounts dampen motor vibration and prevents resonance or so-called "case rattle" caused when fan vibrations reaches the chassis.

Specifications

sku	IXP-64-14T
rated dba	6-14
dimensions	92x92x25mm
rpm	800-1600
cfm	16-42
operating voltage	12v

current draw	0.16A
power consumption	1.92w
bearings	FDB, fluid dynamic bearings

Additional Information

Brand	SilenX
SKU	IXP-64-14T-D
Weight	0.5000
Color	Silver
Fan Dimensions	120mm
Fan Width	25mm
Fan Voltage	12 VDC
Fan RPM	1600
Fan CFM	42
Fan Noise (dB)	14
Special Price	\$12.95
