

Alphacool HF quick release connector kit TPV - Eisbaer compatible - black

\$11.50

Product Images

Short Description

The new HF quick release couplings from the Alphacool Enterprise Solutions series have been developed especially for the Alphacool TPV hoses. Thanks to a barrier rim, they have a very high tensile strength, which consists of a metal ring and clings to the hose with hooks. Furthermore, this quick-release coupling uses screw caps that are unlike other screw caps. These prevent the fitting from opening easily due to vibrations or movements.

Description

The new HF quick release couplings from the Alphacool Enterprise Solutions series have been developed especially for the Alphacool TPV hoses. Thanks to a barrier rim, they have a very high tensile strength, which consists of a metal ring and clings to the hose with hooks. Furthermore, this quick-release coupling uses screw caps that are unlike other screw caps. These prevent the fitting from opening easily due to vibrations or movements. The double seal guarantees maximum tightness. The quick release fittings do not only stand for safety, but also for longevity. As they are made of nylon, they are extremely resistant and can be used with copper and aluminium parts in the water loop without any problems, because nylon does not react with other materials.

Specifications

Technical Data:

- Material: Nylon
- Colour: Black
- Length: 95 mm
- Diameter: 27 mm
- Hose size: 12,7 / 7,6 mm

Additional Information

Brand	Alphacool
SKU	AC-17452
Weight	0.5000
Fitting Type	Quick Disconnect Coupling
Fitting Size	7.6mm x 12.7mm
Fitting Angle	Straight
Fitting Finish	Black
Vendor SKU/EAN	4250197174527
