### Bitspower Mono Block for ASUS ROG Crosshair VIII Hero

The most important components of your motherboards deserve to receive the best heat management possible, which is why Bitspower expertly designed the AMD X570 series mono block to simultaneously cool the CPU and VRMs. Featuring a direct water injection design, the CPU is firstly chilled with the coldest water, then the liquid is redirected over the VRMs, keeping everything at a low temperature for maximum performance.

Made of clear acrylic, the top layer of the mono block offers not only an efficient water channel design, but also a unique look to complement your PC style, while the base layer is made of high quality copper and molded to tightly fit over the CPU and VRMs, offering the best heat transfer possible. Additionally, the Bitspower AMD X570 series mono block is equipped with Bitspower Digital RGB LEDs, the X570 series mono block is sure to become the center piece of your rig with its easy to control light effects.
