## Product Images

## Short Description

---

The HEATKILLER® SW-X 60 DIY bottom plate is a replaceable bottom plate for a HEATKILLER® SW-X cooler. As a DIY bottom plate, it is not tailored to one particular mainboard but can be adapted to any desired mainboard by yourself. Cut the bottom plate to the perfect size utilising snips, a hacksaw, or a Dremel. Mounting holes can be added with a drill.

## Description

---

The HEATKILLER® SW-X 60 DIY bottom plate is a replaceable bottom plate for a HEATKILLER® SW-X cooler. As a DIY bottom plate, it is not tailored to one particular mainboard but can be adapted to any desired mainboard by yourself. Cut the bottom plate to the perfect size utilising snips, a hacksaw, or a Dremel. Mounting holes can be added with a drill.

Countersinks for mounting the cooler top onto the bottom plate are prefabricated. This bottom plate has the following dimensions: 100 x 15 x 2 mm.
