## Short Description

## Product Details:

With graphics cards becoming more powerful, and creating more heat, keeping your system cool and extending the life of your graphics card, as well as all other components is a real must. AzenX has invented an amazing multipurpose--"BLITZTORM System Slot Cooler". This cooler does not merely keep your graphics card 5° to 20° cooler, but as it is designed with a unique 180° rotating fan and a powerful dual side blower, it will keep your whole system cool. This special combination of Tilt To Any Angle fan and Dual Side Expel blower, provides you with the best Airsos air circulation system ever designed. Its capability to lower temperature in different areas of the entire system is 10-50% better than other products in the market. It has variable air circulation speeds to adjust, and operation is remarkably quiet. A built-in red LED brightens up the AzenX for your ultimate cooling inspiration!

Features:

- Unique 180° rotating fan
- Unique Airsos air circulation system
- Easy adjustable speed controller
