

# AKASA USB 3.1 Gen 2 Type-C panel with multi card reader

\$49.95

## Product Images

## Short Description

The AK-ICR-33 multi-card reader from Akasa comes with a USB 3.1 port of type C as well as a USB 3.0 port and five card slots for connecting different card formats. CF, SD, MS, M2 and microSD cards are supported.

## Description

---

The AK-ICR-33 multi-card reader from Akasa comes with a USB 3.1 port of type C as well as a USB 3.0 port and five card slots for connecting different card formats. CF, SD, MS, M2 and microSD cards are supported.

The card reader is intended for internal installation and occupies a 3.5-inch slot. Data transport and power supply for the ports and slots take place via an internal USB 3.1 and USB 3.0 mainboard connection. Another special feature of the card reader is the possibility to actively use up to four of the card slots at the same time and thus carry out cross-format data transfer.

## Features

---

- Read most popular memory cards from one convenient location
- Simultaneously access up to 4 different cards at once, allowing cross format data transfer
- USB 3.1 Gen 2 and USB 3.0 ports for extra connectivity
- USB 3.0 port backwards compatible with USB 2.0
