Features

- Aluminum Construction Reservoir (in contact with coolant)

Specifications

Specifications

- Material:ABS Resin / PMMA / Aluminum (in contact with coolant)
- RPM:5000
- Power:DC12v, TDP18W
- Voltage Range:10v-15v
- Flow Rate:1100L/h
- Temperature:45°C @ 4000RPM
- Connector:4-Pin Molex and PWM+ data feedback
- Overall Dimensions:314.92mm x 80mm (84mm from back mount plate to front)
- Reservoir Size:210mm x 47.4mm

Compatibility

- Fitting:G1/4 Thread
- Coolant:Aluminum Compatible

Included Parts

- 1x Aluminum Top Cap (installed)
- 1x Aluminum Base (installed)
- 1x D5 Variant Pump (installed)
- 1x Reservoir Tube (installed)

Additional Information

Brand	Bykski
SKU	B-NWD5+DNaCT210-G
Weight	2.5000
Color	Gold
Reservoir Type	Tube Res
Tube Res Length	210mm
Pump Type	Laing D5 PWM
