Short Description

During the building of a water-cooling system, bending tubes successfully often requires a high degree of experience and craftsmanship. It was with this in mind that Bitspower's developed our Pre-bent 90-Degree Brass Hard Tubing, making building a new rig easier for water-cooling novices and experience builders alike.

Description

Bitspower Pre-bent 90-Degree Brass Hard Tubing OD12MM Silver - Length 220x300MM

During the building of a water-cooling system, bending tubes successfully often requires a high degree of experience and craftsmanship. It was with this in mind that Bitspower's developed our Pre-bent 90-Degree Brass Hard Tubing, making building a new rig easier for water-cooling novices and experience builders alike. The brass tube has been curved at a 90-degree angle, the 90-degree angles with additional straight tubing of 220mm and 305mm on either side of the bend. The customer can simply cut the tubing to the appropriate length and install it in their water-cooling system.

Specifications
