Watercool SILENTstar HD-Dual Rev2.0

$104.99

Product Images

Short Description

The Rev2.0 of the successful SILENTstar HD cooler series sets new standards. The SILENTstar HD-Dual Rev2.0 cools and decouples two hard drives like never before. The cooling elements are made from massive copperplates, paired with tops from black POM. This material mix provides best cooling performance and allows for excellent decoupling. A thin stainless steel tubing connects both cooling blocks, which feature large cross sections and G1/4"-threads for fittings

Description

The Rev2.0 of the successful SILENTstar HD cooler series sets new standards. The SILENTstar HD-Dual Rev2.0 cools and decouples two hard drives like never before. The cooling elements are made from massive copperplates, paired with tops from black POM. This material mix provides best cooling performance and allows for excellent decoupling. A thin stainless steel tubing connects both cooling blocks, which feature large cross sections and G1/4"-threads for fittings.

One of the new generation's highlights is the possibility to cool the drives' electronics as well by mounting the optional SILENTstar bottomplates.

A stainless steel casing, padded with additional sound insulation, encloses the cooler completely. The high quality insulation is made from one layer of heavy bitumen and a second layer of compressed foam material. This combination ensures almost complete absorption of both vibrations and high frequency noise.

Mounting is easy as the cooler ships preassembled. Only the drives need to be installed, and then the whole box can be mounted with M3 screws into two 5.25" bays. Quick-mounting mechanisms are compatible as well.

Specifications

Specifications:

Material: Electrolytic copper, stainless steel, POM

Dimensions (L x W x H): 172.5 x 146.0 x 70.0 mm

Weight: 1700 g

Threads: 2x G ¼" (DIN ISO 228-1)

Compatible to: 2x SATA HD (3.5")

Included:

1x SILENTstar HD-Dual Rev2.0

1x Installation material/manual

Additional Information

Brand	Watercool
SKU	WC-10423
Weight	3.0000
Color	Silver
Msc Watercool	HDD/SSD Waterblock
Material	Aluminum, Copper
