

# Alphacool Eisbaer Aurora 420 CPU - Digital RGB

\$168.00

## Product Images

## Short Description

---

Can the Eisbaer from Alphacool become even better? Absolutely! Would the Eisbaer look even more impressive with aRGB? Definitely yes!! The Eisbaer Aurora AIO still cools the CPU with the well-known and high-quality copper cooler of the Eisbaer, although the surface area has been enlarged, compared to its predecessor. Also, the pump works much more efficiently with 10% more power, with reduced noise level.

## Description

---

Can the Eisbaer from Alphacool become even better? Absolutely! Would the Eisbaer look even more impressive with aRGB? Definitely yes!! The Eisbaer Aurora AIO still cools the CPU with the well-known and high-quality copper cooler of the Eisbaer, although the surface area has been enlarged, compared to its predecessor. Also, the pump works much more efficiently with 10% more power, with reduced noise level.

The hoses and fittings have also been completely revised and are now much smoother and more inconspicuous. Since durable TPV hose and fittings from the Enterprise Solution series are now used, safety and durability is also one of the features. For more individuality, fittings and hose can be easily replaced thanks to the G1/4 fittings. The Eisbaer Aurora, as before, can be expanded via the quick release fasteners. Also refilling is still possible.

The most striking feature of the Eisbaer Aurora is the addressable RGB LED lighting. Here the focus is on the Eisbaer pump and the stylish Aurora LUX Pro fans. By using a compatible mainboard or controller, colour and effects can be adjusted individually.

## Specifications

---

### Technical Data:

#### Radiator

- Dimension: 468 x 144 x 30 mm (L x W x H)
- Material: Full Copper
- Threads: 2x G1/4"

#### Pump Housing

- Dimension: 66 x 66 x 69 mm (L x W x H)
- Material Reservoir: Transparent Nylon
- Threads: 2x G1/4"
- Connection Digital RGB: 3-Pin JST + 3-Pin 5V

#### Pump

- Speed: 2800 rpm
- Voltage: 7 - 13,5V DC
- Power Consumption: 4W
- Max. Flow Rate: 75 L/h
- Max. Head: 0,95 m

#### Fans

- Size: 140 x 140 x 25 mm
- Speed: 600 - 1500 rpm
- Static Pressure: 0,41 - 1,6 mm H2O
- Air Flow Rate: 27 - 71 m³/h
- Bearings: Hydraulic
- Fan Connector: 4-Pin PWM
- Connection Digital RGB: 3-Pin JST + 3-Pin 5V

#### Compatibility

- Intel 775 / 1056 / 1155 / 1150 / 1151 / 2011 / 2011-3 / 2066
- AMD AM2 / AM2+ / AM3 / AM3+ / FM1 / FM2 / FM2+ / AM4 / TR4 / sTRX4

## Additional Information

Brand	Alphacool
SKU	AC-11731
Weight	6.0000
Color	Black
Block CPU Type	Intel/AMD
Vga	AMD Radeon RX 6800XT Nitro+
Pump Type	DC-LT
Radiator Size	420 (3 X 140mm)
Radiator Thickness	30mm
Vendor SKU/EAN	4250197117319
