## Short Description

EK-Quantum Torque Extender Static MM 28 is a premium male-threaded extender interconnect with male threads on both ends. It is used for connecting two water cooling components which both have female G1/4 threads.

## Description

EK-Quantum Torque Extender Static MM 28 is a premium male-threaded extender interconnect with male threads on both ends. It is used for connecting two water cooling components which both have female G1/4 threads.

This is not a revolvable extender.

Made from nickel-plated CNC machined brass. Sealed with quality EPDM O-rings.
These static extenders can be either tightened by hand or by using EK-Loop Multi Allen Key / Allen Key 9mm (not included, available for separate purchase).

## Specifications

Technical data:
Threading: $2 \times$ G1/4" (Male - Male)
Thread length: 4.5 mm
Diameter: 23mm
Height: 28mm
Made in Europe
PLEASE NOTE:

- Do not use excessive force when attaching fitting barbs using Allen Key 9mm in order to prevent damage!
- This product should NOT be installed with any aluminum Fluid Gaming parts!
