

# Aquacomputer RGBpx LED ring for ULTITUBE reservoirs, 13 addressable LEDs

\$14.95

## Product Images

## Short Description

RGBpx-compatible LED ring for ULTITUBE reservoirs with 13 individually addressable LEDs. The LEDs are mounted on a black rubber insert for a transparent silicone ring that can be pushed onto the glass tubes of the ULTITUBE expansion tank series. An Aqua Computer control unit with RGBpx output is required to operate the LED strip (not included in the scope of delivery). At the end of the strip there is a connector for connecting another RGBpx component.
