Easily extend or screen-mirror your VGA-enabled laptop to a larger screened HDMI-enabled monitor. Encompasses audio and USB cables to deliver audio and power to the HDMI signal. Supports up to 1080p@60Hz.

Description

Akasa VGA to HDMI with Audio Cable

Easily extend or screen-mirror your VGA-enabled laptop to a larger screened HDMI-enabled monitor. Encompasses audio and USB cables to deliver audio and power to the HDMI signal. Supports up to 1080p@60Hz.

Features

VGA to HDMI with Audio cable

• Hassle-free design enables easy connection of laptop with VGA port to a monitor or projector with HDMI port. Perfect for Screen-Mirroring and Screen Extending your laptop.

• Features USB cable and integrated 3.5mm audio cable to power and deliver audio for HDMI signal.

Hassle Free & Improves Productivity

Effortlessly add a second monitor to your VGA enabled laptop. With convenient plug-and-play design, no additional driver is needed. Ideal for increasing your screen space to improve productivity, work space or connecting to a projector for business presentations and conferences.

Different Modes, Different Experiences

Control multiple monitors for an expanded work space or mirror your mobile device like laptop and ultra-mobile PC with audio and video output.

Video-Mirroring Display

Extended Desktop Mode

Designed to Last with Superior Stability

Advanced Integrated Circuit converts VGA signal to 1.0Hz, which is housed in premium plastic in the stored form. Superior stability, superior image quality, superior audio and video quality. Supporting laptop audio and delivering power to the HDMI cable.
